

## 2 - STEP TRANSMISSION SERVICE KIT

PT#4300S | RLO#1086051 | UNIT 10 oz. / 10 oz. | 6 KITS/cs | PALLET UNITS 1080

With Instant Shudder Eliminator.

- Kit contains 4200 Synthetic Automatic Transmission Cleaner & 4001 Synthetic ATF Protectant
- Synthetic Automatic Transmission Flush releases deposits, corrosion, and varnish
- Synthetic Automatic Transmission Fluid Protectant reduces heat and wear improving fluid stability
- Red Line Service Chemical Limited Lifetime Warranty Program coverage (if used every 30,000 miles)\*

### Improves total transmission performance

\*See warranty information for complete details

Manufactured for **Red Line Synthetic Oil**  
6100 Egret Court Benicia, CA 94510  
707-745-6100

Will RED LINE<sup>®</sup> SYNTHETIC AUTOMATIC TRANSMISSION CLEANER harm my transmission?

No! Red Line Cleaner uses the same technology found in ATF (Automatic Transmission Fluid). Any residual Cleaner left in the transmission will not harm internal parts or components.

Why should I use RED LINE SYNTHETIC AUTOMATIC TRANSMISSION CLEANER?

By using Red Line Cleaner, harmful contaminants like varnish and sludge are flushed away with old fluid cleansing the transmission for new ATF.

RED LINE SYNTHETIC AUTOMATIC TRANSMISSION CLEANER (PT#4200) is a uniquely blended synthetic oil base transmission flush for use with automatic transmission fluid. When RED LINE SYNTHETIC AUTOMATIC TRANSMISSION CLEANER is introduced into the transmission it safely cleans light varnish and other deposits from the transmission's internal parts (metal & electronic) safely, preparing it for new transmission fluid.

### RED LINE SYNTHETIC AUTOMATIC TRANSMISSION CLEANER BENEFITS:

- Safely removes light varnish and other deposits
- Prepares transmission for new fluid
- Cleans all internal transmission components
- Contains no alcohol or damaging chemicals

MOLECU-TECH is a new technology that utilizes natural ingredients to release varnish and other deposits from internal metal parts. Once released they are easily flushed away.

RED LINE SYNTHETIC ATF SUPPLEMENT (PT#4001) is a uniquely blended synthetic product specifically formulated for use in automatic transmissions. RED LINE SYNTHETIC ATF SUPPLEMENT incorporates a high-quality synthetic base stock with SE (synthetic esters) which reduces heat, wear, and extends transmission fluid life. RED LINE SYNTHETIC ATF SUPPLEMENT also incorporates friction modifiers, and boundary lubricants to optimize transmission performance while lowering operating temperatures. Blends with all domestic and worldwide OEM automatic transmission fluids.

### RED LINE SYNTHETIC ATF SUPPLEMENT BENEFITS:

- 4X less wear than regular ATF
- INSTANTLY eliminates torque converter lock-up shudder
- Keeps valves & governors free
- Softens hard shifting
- Extends fluid life
- Inhibits overheating & fluid oxidation
- Protects and coats gears & pumps
- Compatible with electronics, frictions & seals
