

Product Fact Sheet

Synthetic P/S Fluid Protectant

Smart Blend Synthetic Universal Power Steering Fluid Protectant eliminates whines and noise in power steering systems. The advanced synthetic technology found in Smart Blend Protectant conditions seals and O rings, protects and prolongs fluid and system life and frees sticky turbines and pumps, while ensuring proper drivability. Smart Blend Universal Synthetic Power Steering Fluid Protectant eliminates the need to stock multiple OEM fluids by converting regular power steering fluid into a universal SLF (Special Lubricating Fluid) to be used in vehicles such as: Honda, Chrysler, Toyota, GM & others.

- Improves Power Steering System Performance
- Eliminates Whines & Noise
- Frees Sticky Turbines & Pumps
- Lubricates & Protects Racks & Pumps
- Eliminates Stiffness
- Extends System & Fluid Life
- Reduces Wear
- Converts Regular Power Steering Fluid To A Universal Fluid

Package

12 - 4 ounce bottles per case

Part

14001
