

Product Fact Sheet

P/S Fluid

Smart Blend Power Steering Fluid is superior blend of premium base oils, this formula contains specially formulated anti-wear and anti-oxidants to prolong the life of your conventional or rack-and-pinion steering system.

Power Steering Fluid should be used to maintain the proper fill level of the power steering reservoir. Low fluid levels results in air entrapment, hard steering, squeal, and premature wearing of steering components.

Package

12 - 12 oz bottles / cs

Part #

14004
