

Product Fact Sheet

Upper Engine & Combustion Chamber Cleaner

ONE FORMULA Upper Engine/Combustion Chamber Cleaner removes hardened deposits from upper engine and combustion system surfaces. ONE FORMULA Advanced SYNTEUM-FI™ technology promotes cleaning in hard to reach places that are often inaccessible to competitive products.

ONE FORMULA Advanced SYNTEUM-FI™ technology safely and effectively cleans the upper cylinder, crankcase, lower piston rings and valve stems. It softens carbon and dissolves gum, allowing piston rings to expand freely restoring compression. Smart Blend Upper Engine Combustion Chamber Cleaner improves both power and engine performance while reducing emissions and helping to improve fuel economy.

- Removes Hardened Deposits
- Cleans Intake Valves, Spark Plugs and EGR Valves
- Cleans Combustion Chamber, Plenum
- Piston Compression Rings
- Oxygen Sensor Safe
- Improves Power & Performance

Package

12 –13oz. Cans / cs

Part

17045
