

# Product Fact Sheet

## Synthetic HFM ATF Converter

Smart Blend Synthetic Highly Friction Modified Transmission Fluid Supplement is a uniquely blended synthetic product specifically designed to convert and enhance Dexron III® / Mercon® fluid into a highly friction modified ATF by incorporating additional friction modifiers. Synthetic Highly Friction Modified Transmission Fluid Supplement also incorporates a high quality synthetic base stock with SE (synthetic esters) which reduces heat, wear, and extends transmission fluid life. Synthetic Highly Friction Modified Transmission Fluid Supplement highly friction modified ATF #6001 is to be used 1 oz. per quart with Dexron III® /Mercon® fluids when servicing transmissions that require HFM fluids such as Chrysler , ATF+3® (7176) & +4®(9602), Honda, Toyota, Mitsubishi and other highly friction modified ATFs.

- Eliminates the Need for Multiple OEM Fluids
- Big Profit Increase
- Saves Money \$\$\$
- Prevents Overheating & Fluid Oxidation
- Keeps Valves & Governors Free
- Softens Hard Shifting
- Extends Fluid Life
- Prevents Torque Converter Lock Up Shudder
- Protects and Coats Gears & Pumps

**Package**

12 - 10 oz bottles / cs

**Part #**

6001
